## FAQ

Q: Will the marble mosaic wall floor lighten after installation?

A: It may change "color" after installation because it is natural marble, therefore we need to seal or cover epoxy mortars on the surface. And the most important is to wait for absolute dryness after every installation step.

Q: Is marble mosaic good for shower floor

A: It is a good and attractive option. Marble mosaic has many styles to choose from 3D, hexagon, herringbone, picket, etc. It makes your floor elegant, classy, and timeless.

Q: Can I install the mosaic tiles by myself?

A: We suggest you ask for a tiling company to install your wall, floor, or backsplash with the stone mosaic tiles because tiling companies have professional tools and skills, and some companies will offer free cleaning services as well. Good Luck!

Q: How many days do you spend preparing the sample?

A: 3-7 days usually.
