Product Application

This 3d cambered stone mosaic is usually applied on the wall area of the interior house. You can install the tile on the TV background wall in the living room, decorative tile backsplash, and dining room mosaic wall decoration. Because this mosaic pattern is in braid basketweave mosaic tile, it is more attractive when install on a large area of the wall. You can see the application below for your reference.

We use environmentally friendly fiber for the stone mosaic back net, and the glue between the marble stone and net is waterproof, and not easy to drop, it is more strong and better under installation.

FAQ

Q: How can I pay for the products?
