FAQ

Q: Can I install the mosaic tiles by myself?

A: We suggest you ask for a tiling company to install your wall, floor, or backsplash with the stone mosaic tiles because tiling companies have professional tools and skills, and some companies will offer free cleaning services as well. Good Luck!

Q: How do I care for my marble mosaic?

A: To care for your marble mosaic, follow the care and maintenance guide. Regular cleansing with a liquid cleanser with mild ingredients to remove mineral deposits and soap scum. Do not use abrasive cleaners, steel wool, scouring pads, scrapers, or sandpaper on any part of the surface.

To remove built-up soap scum or difficult-to-remove stains, use varnish thinner. If the stain is from hard water or mineral deposits, try using a cleaner to remove iron, calcium, or other such mineral deposits from your water supply. As long as the label directions are followed, most cleaning chemicals will not damage the surface of the marble.

Q: How to clean the marble mosaic shower floor?

A: Using warm water, mild cleaner, and soft tools to clean the floor.

Q: How does your company's quality control?

A: Our quality is stable. We cannot guarantee that every piece of product is 100% the best quality, what we do is try our best to meet your quality requirements.
