### Product Detail:

#### Product Description

3D marble mosaic tile focuses on creating a three-dimensional effect and is more commonly used for indoor and outdoor wall decoration. Exquisite small particle mosaics usually use small particle mosaics, without seams, with rigorous structure and rich patterns. This product adopts an uneven dimensional style which we called it uneven 3D Stone Mosaic, and with marble chips, we use Crystal White Marble, Black Marquina Marble, Bianco White Marble,

and Gray Bardiglio Marble to make each piece of tile. On the other hand, we will make other marble chips with different colors by your program requirement.

### Product Application

These uneven 3D stone wall tiles are mainly used for floors, walls, and various flat decorations. Each tile is tightly combined and arranged, so the gaps between the particles will be controlled to the greatest extent. This mosaic stone pattern can be widely used in the bathroom, shower, kitchen, living room, and other areas in both residential and commercial renovations and remodeling. Such as marble mosaic tile floor, stone mosaic backsplash, marble mosaic tile bathroom, stone tiles for kitchen wall, and so on.

Although each particle of natural marble is different, our workers have carefully selected and designed each piece to make the whole layout look harmonious.
