## FAQ

Q: What is the average lead time?

A: The average lead time is 25 days, we can produce faster for normal mosaic patterns, and the fastest days we deliver is 7 working days for those stocks of marble mosaic products.

Q: Does your tile have a difference between the display photo and the real product when I receive it?

A: All products are taken in kind to try to show the color and texture of the product, but the stone mosaic is natural, and each piece may be different in color and texture, and due to the shooting angle, lighting, and other reasons, there may be a color difference between the real product you receive and the display picture, please refer to the real thing. If you have stricter requirements on color or style, we suggest you buy a small sample first.

Q: Do you guarantee safe and secure delivery of products?

A: We deal with our clients with FOB terms mostly, and till now we haven't got any delivery problems with the shipping company. There are maybe unpredictable conditions happening on the sea, therefore it is better to buy insurance to secure the goods from the shipping insurance company.

Q: Can you supply the relevant documentation?

A: We don't supply any testing report, and we provide a pair of documents for your custom clearance.
