Q: Will the marble mosaic wall floor lighten after installation?

A: It may change "color" after installation because it is natural marble, therefore we need to seal or cover epoxy mortars on the surface. And the most important is to wait for absolute dryness after every installation step.

Q: Will marble mosaic backsplash stain?

A: Marble is soft and porous in nature, but it can be scratched and stained after a long time of use, Therefore, it needs to be sealed regularly, like for 1 year, and often clean the backsplash with a soft stone cleaner.
