Product Detail:

Product Description

Waterjet marble mosaic can be regarded as a development and extension of mosaic technology and is a new stone product derived from the combination of mosaic technology and new processing technology. Like the early stone mosaic, it is mainly a combination of stone particles, which can be regarded as an enlarged version of the stone mosaic. In the later period, due to the application of water jet technology and the improvement of

processing accuracy, stone mosaic brought the mosaic technology to the fullest product series and formed the unique styles of natural marble mosaic.
